

My name is Love.

Imagine for future generations
A new land without war and disease
Yes, I am dreaming, but one second please
Do you think that creating one unique nation
Where every voice will be heard
Where everyone would have equal rights
Is this an impossible plan, a lost fight ?
For them, for you, build this new world !

*My name is Love, I fly over oceans, the plains
My heart is pure, my soul shines like the sun
Slow down, stop running, try to have fun
Like me, dance and feel happy, singing in the rain,*

Imagine for new generations
A world without jealousy and hate
No more tricks, no more Watergate
I know, changing human nature is an expedition,
But, listen to me, see the beauty in your mind
On the way to the most beautiful of journeys
Where deep inside you'll find a wonderful key
That opens a mysterious and invible door behind,

*My name is Love, I fly over oceans, the plains
My heart is pure, my soul shines like the sun
Slow down, stop running, try to have fun
Like me, dance and feel happy, singing in the rain,*

Where all people are hopeful and equal
This new world lives in you, just a matter of faith
Without religion, the answer is in you, trust yourself
Indifferences, selfishness, break down these walls,

*My name is Love, I fly over oceans, the plains
My heart is pure, my soul shines like the sun
Slow down, stop running, try to have fun
Like me, dance and feel happy, singing in the rain.*

Paroles : Jean-Michel Bartnicki
Composition : Renaud Vidal
Interprétation : Camélia Moudène
Chanson protégée à la SACEM
